Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner of Patents and Trademarks

The communication in Paper # 12, filed on 9/25/01, is non-responsive to the previous Office action, mailed on 6/29/01, because of the following reason:

This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) and (a) (2). However, this application fails to comply with the requirements of 37 CFR 1.821 through 1.825 because no statement under 37 CFR 1.821(f) is provided. Such a statement is required regardless of what form of the Sequence Listing is filed: a paper copy or a compact disk copy. Further, it is noted that only one copy of compact disk of the Sequence Listing is filed. A second copy, i.e. a record copy is required. Failure to respond to this requirement may result in abandonment of the instant application.

If a complete reply has not been submitted by the time the period set in the Office communication mailed [mail date] has expired, this application will become abandoned under 37 CFR 1.821(g) unless applicant corrects the deficiency and obtains an extension of time under 37 CFR 1.136(a).
